Day 3-5 ( 30-31 May, 1 June )

In Longcanggou, because of the road construction, the road was too muddy, we hired 2 local vans. Heavy fog in the first day and sometimes raining in the 2 days there. Got 1 adult male and 1 juvenile male **Temminck's Tragopan** on the roadside together in the morning, the highlight of that day, we stopped behind them, and went out of the van, they are still there for at least 10 minutes, everybody got very good view of them even in the fog. 1 male **Lady Amherst's Pheasant** was spotted by me in far distance on the roadside in the afternoon on the way back, as we stopped in far distance, so the pheasant not scared by us, still there, and the second van managed to get a good angle, so everybody can see it through the van, these two sightings are the most excited moment in Longcanggou in that day. The other great moment was the sighting of **Golden Parrotbill** feeding in the bamboo alone with a **Golden-breasted Fulvetta**, great view of them. **Spotted Forktail** was spotted on the river bank alone with a **Brown Dipper**. **Chestnut-headed Tesia** gave us a very open and long time view on the base of bushes in heavy fog, a surprise, usually it's always hiding. **Spotted Bush Warbler**, **Brown Parrotbill** and a **Little Bunting** were spotted on the top area where workers were building a panda research base. 3 **Spectacled Wood Pigeon** were flew in and sitting on the same tree, nice view. **Brown Bullfinch**, **Fire-capped Tit**, **Red-tailed Minla**, **Blue-winged Minla**, **Yellow-browed Tit** and **Ultramarine Flycatcher** were

Day 6-7 ( 2-3 June )

Drove from Longcanggou to Erlangshan, spent 1 full day birding in Erlangshan. Lady Amherst's Pheasant both male and female were spotted there, but the highlight there is the **Firethroat**, 3 adult male and 1 juvenile male were spotted in 2 places, one adult was very hiding and less moving, the others are very active, keep moving all the way, the good thing is we got them in the

### Summer Wong Bird Tour

pine tree area, kind of open view, easier for us to find them moving across the trees. **Rufous-tailed Babbler** was spotted, but hiding, good thing is everybody got good view, and possible to get some photos. **Barred Laughingthrush** there is so hiding, 2 of them together, but moving in the bushes are so hard to spot them, finally a few clients missed it. **Black-streaked Scimitar Babbler** was spotted in the middle area, singing a lot in the morning. **White-tailed Robin** was singing and very hiding, only one of us spotted it. A pair of **Long-tailed Rosefinch** and **White-winged Grosbeak** were spotted in the morning. **White-browed Fulvetta** singing loudly and been seen well, **Godlewski's Bunting** sitting on wire.

**Rufous-tailed Babbler and Firethroat ( male ) at Erlang Shan**

**Dinner in Luding Hotel**

Day 8-10 ( 4-6 June )

In Balangshan we got amazing view of **Chinese Monal**, 5 male and 1 female were spotted in one time after in the first morning we spotted a female flew down the valley, and a male did the same thing too, the 5 male were scared when they were walking up to cross the road, as some Chinese bird photographers went too close to them, then they flew down to the valley and landed on the

### Summer Wong Bird Tour

rocky slope feeding there for long time, got the great view of them in the telescope, but too far for our camera. 2 **Tibetan Snowcock**, 1 **Snow Partridge**, 7 **White-eared Pheasant**, 2 **Chestnut-throated Partridge** were spotted in long distance high up near to the top of the mountain, good to have telescope with us. **Granada** gave great view, **Red-fronted Rosefinch** as well, **Sharpe's Rosefinch** somehow more female were spotted than male, **White-tailed Rubythroat** singing in the flowers, but hard to get close to it. 2 male **Slaty Bunting** and **Indian Blue Robin** showed in the same place. Got our first view of **Sichuan Tit** there on this tour. **Chinese Goral** and **Tufted Deer** had been seen there too.

Day 13 ( 9 June )

On the way to Maerkang is the day for high plateau birds, great view of a **White-browed Tit** with prey and saw it's nest on the slope. White-browed Tit Warbler been seen again with **Dusky Warbler**, Pink-rumped Rosefinch, Common Rosefinch, Sichuan Tit. Near to Hongyuan, got **Black-necked Crane**, **Przevalski's Rosefinch** 2 adult male and 2 juvenile male, **Citrine Wagtail**, 3 **Tibetan Larks** flew across the road, took us a while to find where they landed, good view in the telescope, Found nest of **Tibetan Snowfinch**, **Saker Falcon** was seen perched on a power tower.

**juvenile and adult Przevalski's Rosefinch ( male )**

Day 14 ( 10 June )

In Ruergai we got a pair of **Blue-eared Pheasant**, good view in scope, but too far for my camera, 2 pairs of **Tibetan Siskin** feeding flowers on the high bushes, **Snowy-cheeked Laughingthrush** took us some time to spot it, very hiding, Hume's Leaf Warbler and **Chinese Leaf Warbler** were

Day 15-17 ( 11-13 June )

On the way to Chuanzhusi, we got **Azure-winged Magpie**, **Daurian Jackdaw**, **Siberian Rubythroat** and numerous high plateau flowers, in Gonggangling forest we got great view of Sichuan Tit, White-throated Redstart, and a pair of Three-banded Rosefinch again, **Chinese Song**

[Summer Wong Bird Tour](#)

**Thrush** was singing on top of pine tree in the early morning. 2 **Grey-headed Woodpecker** were spotted in 2 difference place and time. 4-6 Tibetan Siskin feeding flowers on the bushes as well. Near to Jiuzhaigou NNR entrance we got great view of a **Spectacled Fulvetta**. Inside the park, got 3-4 **Pere David's Tit**, 2 Hodgson's Treecreeper, 3 Indian Blue Robin, 2 Slaty Bunting male and female.

## Summer Wong Bird Tour

Day 18-20 ( 14-16 June)

On the way to Tangjiahe got 3 Pere David's Tit, and Yellow-bellied Tits, a Speckled Wood Pigeon and a pair of Slaty Bunting. In Tangjiahe NNR, the highlight is **Golden Pheasant**, male and female on the roadside, we watched them inside the coach so they were not been disturbed and stayed there for long time. The Slaty Bunting was kind of common there, been seen many times, **Spectacled Parrotbill** mixed with other small birds in a bird wave, **Crested Goshawk** was seen being chased by a Large-billed Crow, **Crested Kingfisher** was spotted flying alone the river a few times, **Fujian Niltava** was spotted 2 times in 2 different places, **Black-chinned Yuhina** and **White-crowned Forktail** were seen in the same area. **Sulphur-breasted Warbler** was spotted singing loudly. **Little Forktail**, **David's Fulvetta** and **Mountain Bulbul** were seen in the same place, a female **Slaty-blue Flycatcher** was mixed with other birds. A male **White-browed Shortwing** was very active in the bamboo but hiding very well too, can only get glimpse of it crossing the bamboo very fast. A few groups of **White-throated Laughingthrush** were seen on the trail to Motianling. Brown Dipper is quite common in the further area of the river. Lots of **Reeve's Muntjac** were seen on the roadside and river band. **Wild Boar** were seen in the early morning dark on the roadside, **Tibetan Macaque** been seen a few times eating fruits on the roadside. A **Yellow-throated Marten** was seen by some clients, **Chinese Goral** was spotted when it was disturbed by us, it ran into the forest and stood there look at us for a while, A male **Takin** was always been seen feeding on the same place in these days and a **Hwamei** was spotted while we were looking at the Takin.

Day 21-22 ( 17-18 June )

**Collared Crow** was spotted on the way from Tangjiahe to Yangxian. **Red-billed Starling** was spotted on a gas station where there is a bird market there too, poor birds kept in small cages, saw some very strange color starlings which were painted. In Yangxian we unexpectedly got a pair of **Chinese Bamboo Partridge** on the trail of rice field and watched them flew up to a yard wall, and walking very slowly on it for a while until they jumped into the yard. **Crested Ibis** were feeding in the rice field, adults and juveniles in the middle of the day, very hot even around 4 pm. **Long-billed Plover** was feeding on the river sand shore. A pair of **Crested Kingfisher** were seen flew alone

the river then into the trees. **Ashy Drongo** was spotted sitting on the top of a tall tree. White-crowned Forktail were spotted both in Yangxian and Foping, In Yangxian it was spotted feeding on the dirty and smelly pig farm house ! **Golden Snub-nosed Monkey** was the sure high light of these days ! The babies are so cute !

The Golden Snub-nosed Monkey is wild, from the Foping Panda Base where holds the unique Chocolate Giant Panda. The monkey trackers in the panda base went in the very early morning to the wild monkeys' sleeping place in the high mountain to push them to the lower area into a specific place in the panda base where tourists will come to visit, and stay with the money to keep them in the same place for the whole day until tourists left, the trackers said, without them to keep the monkeys stay around, the monkeys will leave the place within 15 mins into the deep forest. The monkeys go back to high mountain to sleep every day, so the trackers have to climb the mountain every morning to attract them into the panda base. And every 1-2 months, they will change a place to hold the money, otherwise the monkeys will destroy the trees and plants on that place. There is another park do monkey tracking too in Changqing, Shanxi, but that place's trees and plants were totally destroyed by monkeys as they didn't change place.
